Checklist for Part2 Deliverable

Team name: SDA8
Repository name: SDA8-Covid-Vaccine-Reservation
URL to access your application: https://covidvaccinesystem-sda8.herokuapp.com/

Delivered:

√	List of use cases agreed with teaching team (Part 1 feedback)
√	Class diagram
√	Pattern descriptions
√	Design rationale (UoW and Lazy Load)
√	Functionality and pattern implementation

List of use cases implemented (as agreed with teaching team – Part 1 feedback). List them all – just use cases IDs.

UC001, UC002, UC003, UC004, UC005, UC006, UC007, UC008, UC009, and UC010   (UC002 questionnaire creation and UC011 are not implemented yet)

Fully implemented and deployed patterns (list them all – just pattern names)

Domain model, Data mapper, Unit of work, Lazy load, Identity field, Foreign key mapping, Association table mapping, Embedded value, and Concrete table inheritance.   (Authentication and Authorization are not implemented yet)

Additional comments (optional):
